The global lens, every month

Global event

A major international show, summit or regulatory date, with the India angle drawn out.

Global Lens

India compared with four or five AI economies on one question.

Country Spotlight

One partner country each month: policy, investment and companies.

How the year is built

A buyer category every month

Compute, industry, finance, health, semiconductors, public sector and more each get their own month.

A global lens every month

One global event, one Global Lens comparison and one Country Spotlight in every month.

Anchored to the big shows

CES, GTC, MWC, Hannover Messe, Computex, SEMICON India and GITEX Global.

Anchored to the rulebook

India's data protection deadline and the EU AI Act dates of 2 August and 2 December 2027.

Twelve annual flagships

Reports, lists and rankings that return every year.

Evidence first

Announced is not operational: every figure is checked and every claim sourced.
